SECURE DIGITAL LIMITED with HIKVISION transit video surveillance systems can secure a wider variety of public transportation – including Buses, private vehicles, trains – by effectively addressing the many public safety concerns that often arise: Disputes between Passengers, Drivers' negligent driving habits, as well as other nuisances, such as passengers attempting to enter/leave without purchasing a ticket, etc.

This reduction in problems serves to not only help eliminate unwanted behavior, but also greatly enhance management's overall efficiency.

- + Video is recorded locally, and as such, can be used immediately help settle disputes between passengers and drivers.**
- + Effective supervision of Driver behavior.**
- + Recording of Video data, including road conditions and running status. This video can be used as reference material to address disputes and investigate driving accidents.**
- + Image capturing and remote monitoring through 3G or WI-FI**
- + Immediate tracking and recording of specific vehicle locations and speed through GPS positioning.**
